

It pays to choose BSW for all your audio gear. Just ask Thomas.

BSW is celebrating 30 years in business by giving away products worth \$1,000 each and every week for 30 weeks! **Thomas Barnett of Raspberry Productions** in Warren, Michigan won the **Aardvark DirectProQ10** package. Says Thomas: "I want to thank BSW for this fine addition to my studio. I'll probably be one of the first to try the Q10 on the Mac. BSW will be my first stop for new hardware and studio accessories in the future. Thanks again!" You could win too – enter at www.bswusa.com!

New Pro CD Player with MP3 Playback and XLR Outs

The new Denon DDC635 CD player is a professional deck with all the features you want, including MP3 playback, balanced XLR output and digital output, and robust construction for withstanding continuous use. **Features:** index search; A-B repeat; Instant Start; Cue to Music; pitch control $\pm 9.9\%$; program play memory; next track reserve; parallel remote port; headphone jack; adjustable balanced XLR outputs; unbalanced RCA outputs; coaxial digital output.

We're currently negotiating with a Big-Name Hollywood Action Star to pick up his slightly-used stretch Hummer as our official BSW Corporate Limo, pending a slight increase in orders. If all goes according to plan we'll take delivery soon. If not, we have back-up strategy involving a burnt-orange AMC Pacer, complete with a full library of Frampton 8-tracks...

New Modular AudioArts Console

Today is your lucky day. BSW is proud to debut the new R-90 Console from AudioArts. In fact, we are so excited about this console that we purchased a load of them and are passing the savings directly to you. Our exclusive special introductory offer will save you thousands off the manufacturer list price.

Say hello to your new console. The AudioArts R90 is packed with the features engineers want: two stereo program buses and two mono buses, dual phone caller input with mix-minus (requires optional phone module), 23 input/accessory module slots, and more. The R902012 comes with 12 input modules and 11 open slots for ample expansion. Both control room and studio monitoring with talkback are provided offering plenty of monitoring flexibility. All switching is electronic and LED illuminated. And with its desktop design and hinged meter bridge

R90 shown with optional modules

(revealing the DB-25 connectors), installation is a snap. The R-90's list of features is way over the top and much too extensive to list here...so give us a call or dive into our website for all the technical info.

Don't drag your feet. The R-90 console will be a fixture of pride for your station for many years to come. However, BSW's special promotion is a limited time offer.

Pro-Quality Mixing and Signal Distribution at Amazing Prices

This quality Behringer audio gear is at prices so low you'll think they're mispriced! (Don't worry; we double-checked.)

The Ultralink Pro MX882 is a unique and universal problem-solver when it comes to signal distribution. Whether as a splitter, a mixer or a matching amp/DI box, it guarantees ultimate reliability and the shortest possible signal paths. Its extensive routing possibilities, professional switching concept, servo-balanced I/O with XLR and 1/4" TRS connectors and generous LED displays make it extremely flexible.

The 12-input, 2-bus mic/line UB1202 mixer boasts 4 state-of-the-art preamps and an extremely musical 3-band EQ plus switchable low-cut filter on all mono channels. You also get 12 balanced high-headroom line inputs, 1 post fader send per channel, peak LEDs on all mono channels; main mix outputs plus separate control room, headphones and stereo tape outputs, and more.

The tiny UB502 mixer features the same state-of-the-art preamps and ultra low-noise design for highest possible headroom. An XLR mono input channel and 1/4" stereo line inputs make it ideal for use with fixed audio installations as well as keyboards, samplers and computer applications. At this price, you're getting a lot of mixing power for your buck!
